

Daniel Christopher

BUSINESS & DATA ANALYST

Manchester | Email | LinkedIn | Portfolio

PROFILE

Business analytics postgraduate with an MSc dissertation submitted and final result pending, plus a 2:1 BA (Hons) in Digital Marketing. Project experience across SPSS, SQL, SAS Enterprise Miner, Excel, Power BI, Qualtrics and Python, translating statistical, machine-learning and business-analysis findings into clear commercial recommendations. Fluent in English and German.

TECHNICAL & BUSINESS SKILLS

Analytics: SPSS, survey data preparation, reliability/EFA, correlation, HC3 regression, bootstrap mediation

Data & modelling: SQL, ERD/DFD, SAS Enterprise Miner, decision trees, logistic regression, neural networks

BI & business analysis: Excel dashboards/scenarios/optimisation, Power BI, DAX, Python visualisation, KPI reporting, PESTLE and change management

SELECTED ANALYTICS PROJECTS

AI Personalisation, Trust & Loyalty - Individual MSc Dissertation

Aug 2026 | Qualtrics, SPSS, PROCESS, Python

- Designed and delivered a survey study using 139 complete UK e-commerce responses; quality-checked the data and structured 45 variables in SPSS.
- Used reliability testing, EFA, correlations, HC3 regression and PROCESS Model 4 mediation with 10,000 bootstraps; interpreted a non-causal, trust-mediated association and developed trust-centred recommendations.

Gym-Membership Churn Modelling - Individual Project

May 2026 | SAS Enterprise Miner | 4,000 records

- Compared decision-tree, logistic-regression and neural-network models using a 40/30/30 split; selected the neural network on 4.42% validation misclassification (95.6% validation accuracy) and proposed targeted retention and responsible-use controls.

Uber Eats Database Prototype - Four-Person Team Project

May 2026 | SQL, ERD and DFD

- Collaborated across an evenly divided assignment spanning DFD/ERD design and a working SQL prototype; team scripts created, populated and queried the database, with strong ERD-to-SQL and query-complexity feedback.

Business Dashboard & Decision Model - Four-Person Team Project

Nov 2025 | Excel dashboarding, scenarios and optimisation

- Worked across an evenly divided assignment covering data audit/cleaning, an interactive management dashboard, 60-70% margin scenarios and optimisation-based location/store recommendations.

ADDITIONAL ANALYSIS

Shopify Digital Transformation (individual): applied PESTLE, technochange and Kotter to assess cloud scaling, merchant capability and ethical platform leadership.

Siemens Industry 4.0 (individual): evaluated CPS adoption across operations, workforce, cybersecurity and sustainability using CPS architecture and sociotechnical analysis.

EDUCATION

MSc Business Analytics | Manchester Metropolitan University | Sep 2025 - Sep 2026

Dissertation submitted; final award and classification pending. Relevant study includes AI & Machine Learning, Data Management, Statistics & Modelling, and Data Visualisation.

BA (Hons) Digital Marketing - 2:1 | Birmingham City University | Sep 2022 - Jan 2025

Accelerated programme completed in two years.

CERTIFICATIONS & LANGUAGES

DMI Certified Digital Marketing Associate | Google Analytics (GA4) | HubSpot Content Marketing | Microsoft Power BI | HackerRank SQL (Basic) | English (fluent) | German (fluent)
